

Blood Donation Consent Form (Under 18)

A **blood donation consent form** for individuals under 18 ensures legal guardian approval before donation, maintaining safety and compliance. This form outlines the risks, benefits, and responsibilities associated with donating blood for minors. Proper consent helps protect both the donor and the blood center during the collection process.

Donor Information

Full Name of Donor:

Date of Birth:

Age:

Address:

Risks and Benefits

I understand that blood donation involves a brief medical screening and may cause minor discomfort, bruising, dizziness, or fainting in rare cases. The benefits include helping patients in need and saving lives. The blood donation process is supervised by trained professionals to ensure safety.

Consent and Authorization

By signing below, I, the legal parent/guardian of the above-named minor, consent to their voluntary participation in blood donation. I confirm that I have read and understood the risks, benefits, and my responsibilities. I authorize the blood center to collect blood from my child.
