

School Parent Survey Questions for Elementary Students

Gather valuable insights with our **school parent survey questions** designed specifically for elementary students. These questions help educators understand parent perspectives on academic progress, school environment, and student well-being. Improve communication and foster a supportive community by utilizing targeted feedback from parents.

Sample Survey Questions

- 1. How satisfied are you with the communication between the school and parents?
- 2. How would you rate your child's academic progress this year?
- 3. Do you feel your child is safe and supported at school?
- 4. How often does your child share positive experiences about school at home?
- 5. Are you satisfied with the amount and quality of homework assigned?
- 6. How would you rate the quality of teaching at our school?
- 7. Does your child participate in extracurricular activities or programs? If not, why?
- 8. How comfortable do you feel approaching teachers or staff with concerns?
- 9. What suggestions do you have to improve the school environment?
- 10. Do you feel that your child's individual learning needs are being met?
