

Supplier Evaluation Questionnaire for Manufacturing Companies

The **supplier evaluation questionnaire** for manufacturing companies is a critical tool designed to assess the quality, reliability, and performance of potential suppliers. It helps organizations ensure compliance with industry standards and optimize their supply chain management. By systematically evaluating suppliers, companies can make informed decisions that enhance production efficiency and product quality.

Supplier Information

Company Name:	
Address:	
Contact Person:	
Email / Phone:	
Products/Services Provided:
