

Community Needs Survey for Environmental Sustainability Initiatives

Conducting a **community needs survey** is essential for identifying local priorities and fostering engagement in environmental sustainability initiatives. This process helps tailor projects to address specific concerns and maximize positive impact. By involving residents, sustainable development becomes more inclusive and effective.

Sample Community Needs Survey

Name (Optional):

Email (Optional):

Which environmental issues do you think are most important in our community? *

Which types of sustainability initiatives interest you most? *

- ☐ Recycling Programs
- ☐ Public Green Spaces
- ☐ Clean Energy Projects
