

# Patient Medical Report

**Report Date:** 2024-06-27

**Patient Name:** John Doe

**Date of Birth:** 1981-03-12

**Patient ID:** 123456789

**Physician:** Dr. Emily Smith

## Summary

The **patient medical report** provides a comprehensive summary of the individual's health status, including detailed laboratory test results. These results help healthcare professionals diagnose conditions and monitor treatment progress accurately. Timely access to this information ensures effective patient care and informed medical decisions.

## Laboratory Test Results

Test	Result	Reference Range	Units	Flag
White Blood Cell Count (WBC)	7.8	4.0 - 11.0	$\times 10^9/L$	Normal
Hemoglobin (Hb)	13.9	13.5 - 17.5	g/dL	Normal
Platelet Count	210	150 - 400	$\times 10^9/L$	Normal
Glucose (Fasting)	102	70 - 99	mg/dL	High
Total Cholesterol	188	0 - 200	mg/dL	Normal
ALT (Alanine Transaminase)	24	7 - 56	U/L	Normal
Creatinine	1.0	0.6 - 1.3	mg/dL	Normal

## Physician's Comments

Laboratory results are largely within normal limits, except for slightly elevated fasting glucose. It is recommended to monitor blood sugar regularly and review dietary habits. No acute concerns at this time. Follow-up in 3 months unless new symptoms develop.
