

# Culturally Responsive School Climate Survey Topics

The **culturally responsive school climate survey** explores topics such as inclusivity, respect for diversity, and equitable student experiences. It assesses how well schools foster a supportive environment that honors different cultural backgrounds. This feedback helps improve policies and practices for a more welcoming educational setting.

## Common Survey Topics

- Inclusivity and belonging
- Respect for different cultures and identities
- Equitable opportunities and support for all students
- School policies on discrimination and bias
- Representation of diverse cultures in curriculum and activities
- Student and family engagement from various backgrounds
- Staff cultural competence and sensitivity
- Reporting and addressing incidents related to bias or exclusion
- Teacher expectations and attitudes towards diversity
- Physical environment reflecting diversity (displays, events, etc.)
