

Demographic Questionnaire Sample

A **demographic questionnaire sample** is an essential tool in research studies, designed to collect participants' basic information such as age, gender, education, and income. This data helps researchers analyze patterns and ensure diverse representation within their study population. Using a well-structured demographic questionnaire enhances the accuracy and relevance of research findings.

Demographic Information

Age:

Gender: Select your option ▾

Highest Level of Education Completed: Select your option ▾

Annual Household Income: Select your income range ▾

Ethnicity: Select your option ▾
