

School Climate Survey for Remote Learning Environments

The **school climate survey** for remote learning environments evaluates students', teachers', and parents' perceptions of safety, engagement, and support in virtual classrooms. This survey helps identify strengths and areas for improvement to foster a positive and inclusive online educational experience. By gathering feedback, schools can enhance communication, well-being, and academic success in remote settings.

About You

I am a:

- ☐ Student
- ☐ Teacher
- ☐ Parent/Guardian

Grade Level (if applicable):

Safety

1. I feel safe while participating in remote learning sessions.

- ☐ Strongly Agree
- ☐ Agree
