

Customer Feedback Questionnaire for Mobile App Usability

Collect valuable insights with our **customer feedback questionnaire** designed specifically for mobile app usability. This survey helps identify user experience issues and gather suggestions for improvement. Enhance your app's performance by understanding real user needs and preferences.

About You

Age:

How often do you use the app?

Usability Feedback

How easy is it to navigate the app?

- ☐ Easy
☐ Average
☐ Difficult

Have you encountered any issues while using the app? Please describe:

What feature(s) do you like most about the app?

What improvements or new features would you suggest?

How satisfied are you with the app overall?
