

Hazard Log Form Sample

This **hazard log form sample** includes a dedicated hazard classification section to systematically identify and categorize potential risks. It facilitates effective risk management by ensuring all hazards are logged with appropriate severity levels. Ideal for safety compliance and project documentation.

Hazard Classification Section

Hazard ID	Description	Area/Location	Possible Causes	Likelihood	Severity	Risk Level	Mitigation Measures	Action Owner	Status
HZ-001	Slippery floor near entrance	Main Lobby	Water tracked from outside	Possible	Moderate	Medium	Use warning signs, improve matting	Facilities Manager	Open
HZ-002	Unshielded electrical wiring	Server Room	Poor installation	Unlikely	Major	High	Install cable covers, schedule audit	IT Supervisor	Open

Hazard Classification Key

Likelihood	Severity	Risk Level
Rare Unlikely Possible Likely Almost Certain	Minor Moderate Major Critical Catastrophic	Low Medium High Extreme
