

# Academic Assessment Form Sample for Group Projects

This **academic assessment form** sample is designed specifically for evaluating group projects, enabling fair and comprehensive grading of collaborative efforts. It includes criteria such as teamwork, individual contributions, and overall project quality to ensure balanced assessment. Using this template helps educators streamline the evaluation process and provide clear feedback to students.

## Project Information

|                    |  |
|--------------------|--|
| Project Title      |  |
| Group Members      |  |
| Date of Submission |  |
| Evaluator          |  |

## Assessment Criteria

| Criteria                | Description   | Score (1-5) | Comments |
|-------------------------|---|-------------|----------|
| Teamwork                | Ability to work collaboratively, communicate effectively, and resolve conflicts within the group. |             |          |
| Individual Contribution | Level of participation and input from each group member towards the project.                      |             |          |
| Project Quality         | Overall quality, completeness, and creativity of the project deliverables.                        |             |          |
| Research & Content      | Depth of research, accuracy, and relevance of information presented.                              |             |          |
| Presentation            | Clarity, organization, and effectiveness of the final presentation or report.                     |             |          |
