

Pre and Post Training Evaluation Questionnaire

The **pre and post training evaluation questionnaire** for healthcare staff is designed to assess knowledge, skills, and attitudes before and after training sessions. This tool helps measure the effectiveness of training programs and identify areas for improvement in clinical practice. Accurate evaluation ensures that healthcare professionals are better prepared to deliver quality patient care.

Participant Information

Name:

Department/Unit:

Date:

Role/Position:

Evaluation: Pre-Training

Knowledge Assessment
