

Quality Control Record Form

The **quality control record form** is essential in the pharmaceutical industry to document and verify the inspection processes ensuring product compliance with regulatory standards. This form helps maintain accuracy, traceability, and consistency throughout manufacturing. Proper use of this record supports overall product safety and efficacy.

Product/Batch Information

Product Name		Batch/Lot No.	
Date of Manufacture		Expiration Date	
Test Performed By		Test Date	

Quality Control Parameters

Test/Parameter	Specification	Result	Pass/Fail	Remarks
Appearance				
Assay				
pH				
Moisture Content				
Microbial Limit
